

**APPENDIX B  
FORT BEND COUNTY, TEXAS  
NSP TARGET AREAS**

HUD'S NSP Data for estimated foreclosure abandonment risk score was use to identify Fort Bend County's target areas for the NSP Program. The HUD database provided data from four sources to predict whether or not a neighborhood had a high or low risk for foreclosed and abandoned homes. The estimated foreclosure abandonment risk score provided a score for each neighborhood from 0 to 10 where 0 indicates that the data suggested a very low risk and 10 suggested a very high risk. Fort Bend County is targeting the 2000 Census Tract Block Groups with foreclosure abandonment risk scores between 6 and 10.
